## Brand Promise

To deliver custom metal products that reflect the client's vision, match the project's technical requirements and elevate the final space through material quality, proportion, precision and refined finishing.

# What We Do

A complete metal manufacturing and finishing scope for premium residential, commercial and hospitality projects.

## 01 Stainless Steel Manufacturing

Custom stainless-steel fabrication for furniture and interiors.

## 02 PVD Stainless Steel Coating

Gold, rose gold and black finishes for premium surfaces.

## 03 Custom Metal Furniture

Office, dining, lounge and event furniture structures.

## 04 Metal Chairs & Tables

Restaurant, office, banquet and residential furniture frames.

## 05 Decorative Partitions

Geometric screens, wall details and architectural statements.

## 06 Hotel & Restaurant Works

Buffet stations, service counters, dining areas and displays.

## 07 CNC Tube & Pipe Cutting

High-precision cutting for tubes, pipes and profiles.

## 08 Fiber Laser Cutting

Plate cutting for stainless steel and iron applications.

## 09 TIG & Laser Welding

Clean structural joining and detail-level fabrication.

## 10 Bending & Shearing

Sheet and metal forming for custom components.

## 11 Polishing & Brushing

Refined surface preparation for luxury metal finishes.

## 12 Electrostatic Coating

Durable coating solution for selected metal products.

# Manufacturing Capabilities

Technical capabilities designed to support custom fabrication, decorative metal features, furniture structures and premium project execution.

## 01 PVD Stainless Steel Coating

Finishes: Gold, Rose Gold, Black  
Work size: 195 cm x 380 cm

## 02 Fiber Laser Cutting

Plate size: 3 m x 1.5 m  
Stainless steel: up to 8 mm  
Iron: up to 12 mm

## 03 CNC Tubes & Pipes

Tubes: 20 cm x 20 cm to 8 cm x 8 cm  
Pipes: 20 mm to 230 mm

## 04 Metal Bending

Thickness capacity: up to 8 mm  
For custom structural and decorative parts

## 05 Stainless Steel Shearing

Thickness: up to 8 mm  
Length capacity: 2.5 m

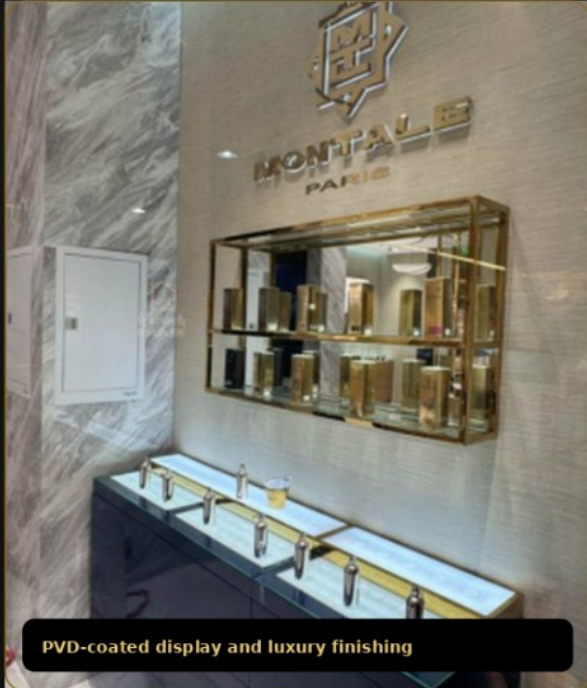

## 06 Pipe Stripping

Diameter range: 16 mm to 50 mm  
Prepared for clean finishing workflows

### FINISHING CAPABILITIES

Polishing, brushing, PVD coating, electrostatic coating, TIG welding and laser welding - aligned to product use, visual finish and project requirements.

# Premium PVD Coating Finishes

PVD-coated display and luxury finishing

PVD coating creates durable, elegant and visually striking finishes for premium stainless-steel products. The service is ideal for furniture, decorative metal works, hospitality interiors, architectural details, commercial projects and luxury residential spaces.

Available finishes include gold, rose gold and black, with polished or brushed stainless-steel preparation depending on design intent and use case.

Polished Steel

## 01 Visual Consistency

Color and finish quality aligned across project components.

## 02 Surface Appeal

Premium look suitable for luxury hospitality and interiors.

## 03 Design Flexibility

Multiple metallic finishes for different concepts and styles.

# Products & Solutions

Custom metal products and design solutions for offices, hospitality, villas, homes, events and commercial spaces.

Metal chairs & tables

Office solutions

Hospitality works

## 01 Office Metal Solutions

Executive desks, meeting tables, metal legs, partitions, shelving, display units and premium office furniture.

## 02 Metal Chairs & Tables

Custom chairs, dining tables, lounge tables, restaurant tables, event tables and luxury furniture frames.

## 03 Hospitality & Restaurants

Buffet stations, service counters, banquet setups, restaurant seating, dining furniture and hotel installations.

## 04 Villas & Residential Interiors

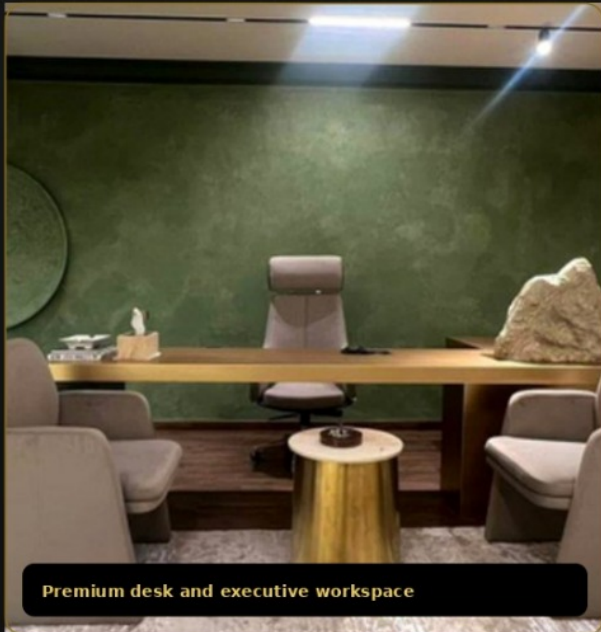

Stair railings, decorative screens, mirrors, consoles, bedroom partitions, living room accents and custom home furniture.

## 05 Decorative & Architectural Works

Gold screens, geometric partitions, wall cladding, display structures, mirror frames and statement pieces.

# Office & Corporate Metal Solutions

Executive desks, office seating areas, metal tables, wall units and refined stainless-steel accents designed for premium business environments.

Premium desk and executive workspace

Integrated corporate interior metal details

Wall shelving and metal-lined display features

## OFFICE SOLUTIONS INCLUDE

- Executive desks and table structures
- Meeting tables and metal legs
- Decorative wall shelves and display units
- Partitions and accent metal details
- Custom finishes aligned with interior concept

SELECTED PROJECTS

# Hospitality, Restaurants & Dining Spaces

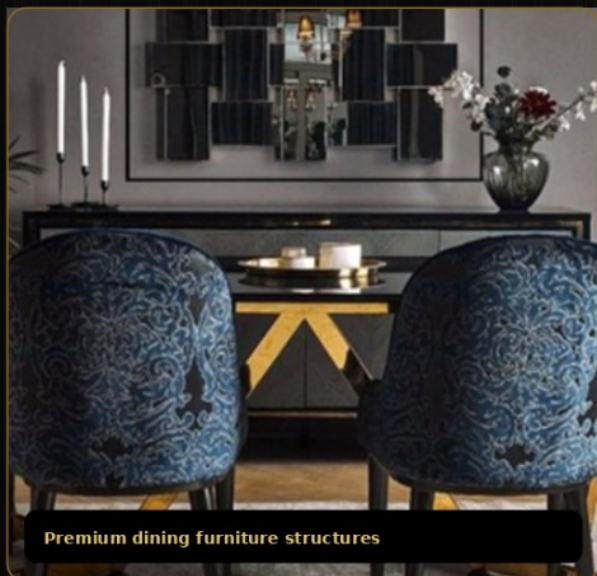

Custom metal dining solutions and decorative hospitality features for restaurants, cafes, lounges, hotels and commercial dining areas.

Custom restaurant tables and seating frames

Stainless-steel buffet and service solutions

Premium dining furniture structures

Hospitality interiors and custom reception elements

Luxury event and banquet metal furniture

Event installations and premium gold-finished structures bring visual impact, durability and refined execution to high-end venues and hospitality settings.

Gold table structures

Custom hospitality frames

## APPLICATIONS

Banquet tables

Event furniture

Luxury venue metal structures

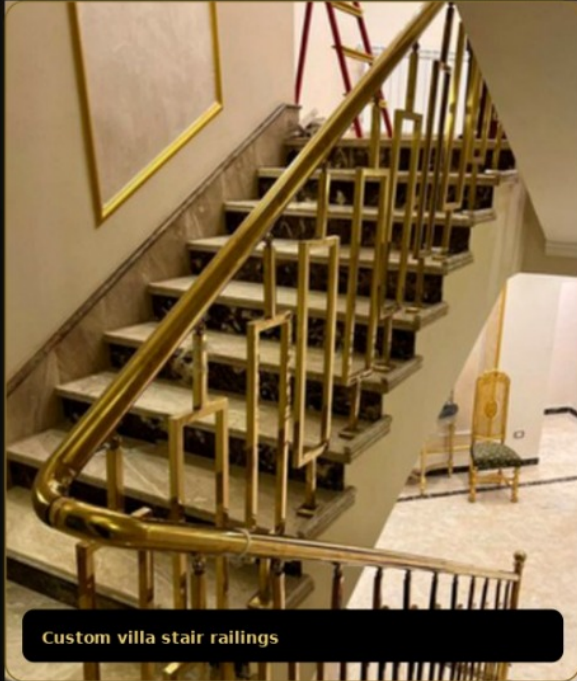

Gold-finished table frames

Hospitality installations

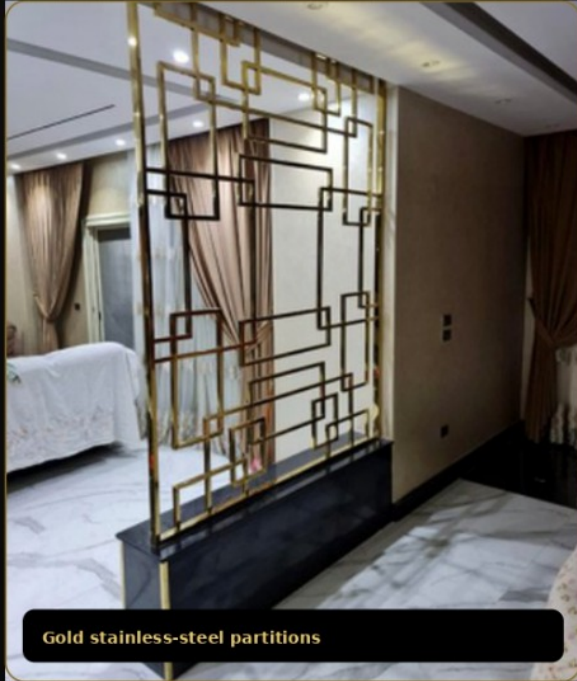

Custom decorative setup details

# Villas, Homes & Residential Metal Works

Stair railings, decorative partitions, custom frames and refined metal details for villas, homes, bedrooms, living rooms and private interiors.

Custom villa stair railings

Gold stainless-steel partitions

Luxury residential furniture frames

Custom bedroom metal structures

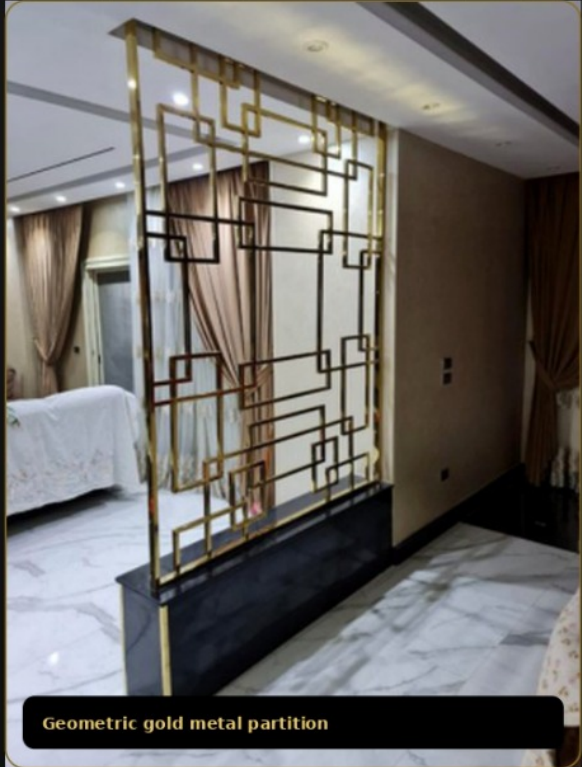

Bespoke decorative metal details

# Architectural & Decorative Metal Works

Custom decorative metal features that elevate interiors through precision, proportion, material quality and premium finishing.

Architectural arched metal feature

Geometric gold metal partition

## Geometric metal partitions

Designed as functional dividers and luxury visual features.

## Wall cladding and mirror frames

Custom metal accents for interior depth and reflection.

## Display structures

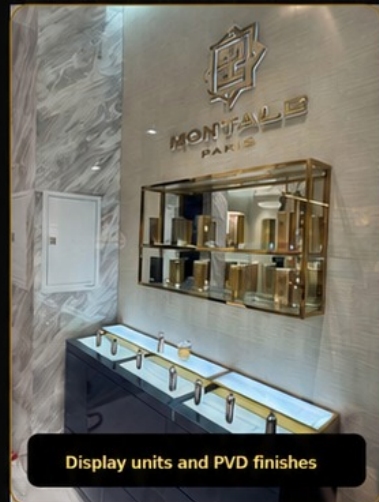

Premium shelves, wall units and branded display installations.

## Custom statement pieces

Bespoke decorative elements built around the design concept.

# Metal Furniture & Detailed Craftsmanship

A refined product range covering metal chairs, tables, sofa frames, consoles, display structures, and custom details for residential and commercial use.

Every furniture structure is treated as a project-specific component: proportions, stability, finish color, material thickness, visual impact, and final installation are reviewed against the intended space and use case.

Professional project delivery depends on clear approvals, controlled manufacturing inputs and finishing quality checks before installation.

## 01 Design Intent Review

Clarify client references, usage requirements, space constraints and desired finish.

## 02 Measurement Validation

Confirm dimensions, tolerances and site conditions before fabrication.

## 03 Technical Feasibility

Review material, structure, finishing method and manufacturing route.

## 04 Production Preparation

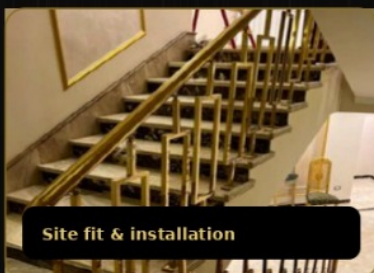

Prepare components, cutting paths, fabrication sequence and assembly details.

## 05 Finish Control

Select polished, brushed, PVD or coated finish according to design and usage.

## 06 Installation Readiness

Validate delivery handling, fixing method and final site coordination.

# Industries We Serve

Custom stainless-steel and metal design solutions tailored to each sector, space, function and project requirement.

**01** Offices & Corporate Spaces

**02** Hotels

**03** Restaurants & Cafes

**04** Villas

**05** Homes

**06** Events & Wedding Halls

**07** Retail Shops

**08** Commercial Projects

**09** Interior Designers

**10** Contractors

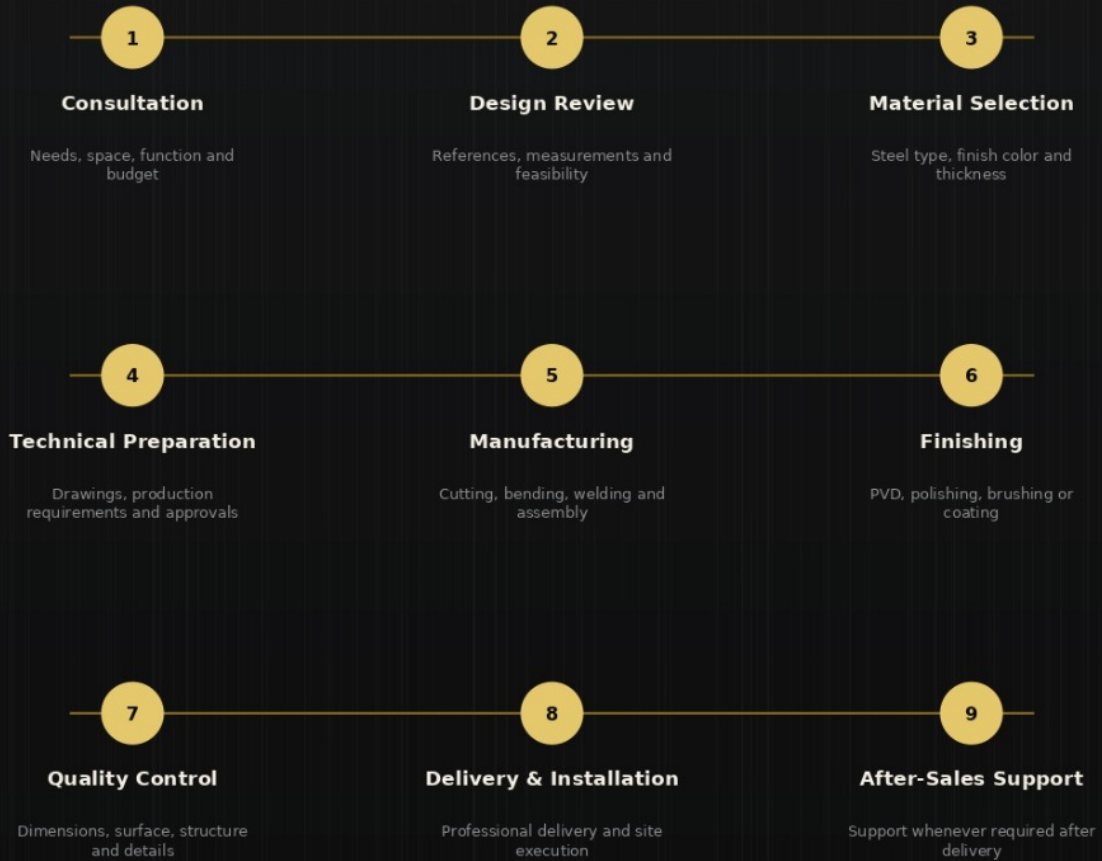

**11** Developers

**12** Furniture Brands

Egyptian Steel Services supports clients that need metal products to perform technically, visually and commercially - from premium residential details to heavy-use hospitality and corporate environments.

# From Concept to Completion

A controlled workflow that helps clients move from idea to approved design, manufacturing, finishing, delivery and installation.

## Process Benefit

This workflow minimizes uncertainty, protects the final finish, improves coordination with designers and contractors, and helps ensure that every product is delivered according to the approved concept and technical requirements.

# Why Choose Egyptian Steel Services

## 01 Custom-Made Solutions

Every project is tailored to client dimensions, style, function and design intent.

## 02 Premium Stainless-Steel Quality

Durable materials and refined finishes designed for long-term performance.

## 03 Advanced Manufacturing Capabilities

Laser cutting, CNC tube and pipe cutting, bending, welding, shearing, polishing and coating.

## 04 Luxury Finishing Options

Gold, rose gold, black, brushed, polished and custom surface finishes.

## 05 Residential & Commercial Experience

Experience across homes, villas, hotels, restaurants, offices, events and commercial projects.

## 06 End-to-End Execution

From consultation and technical review to manufacturing, finishing, delivery and installation.

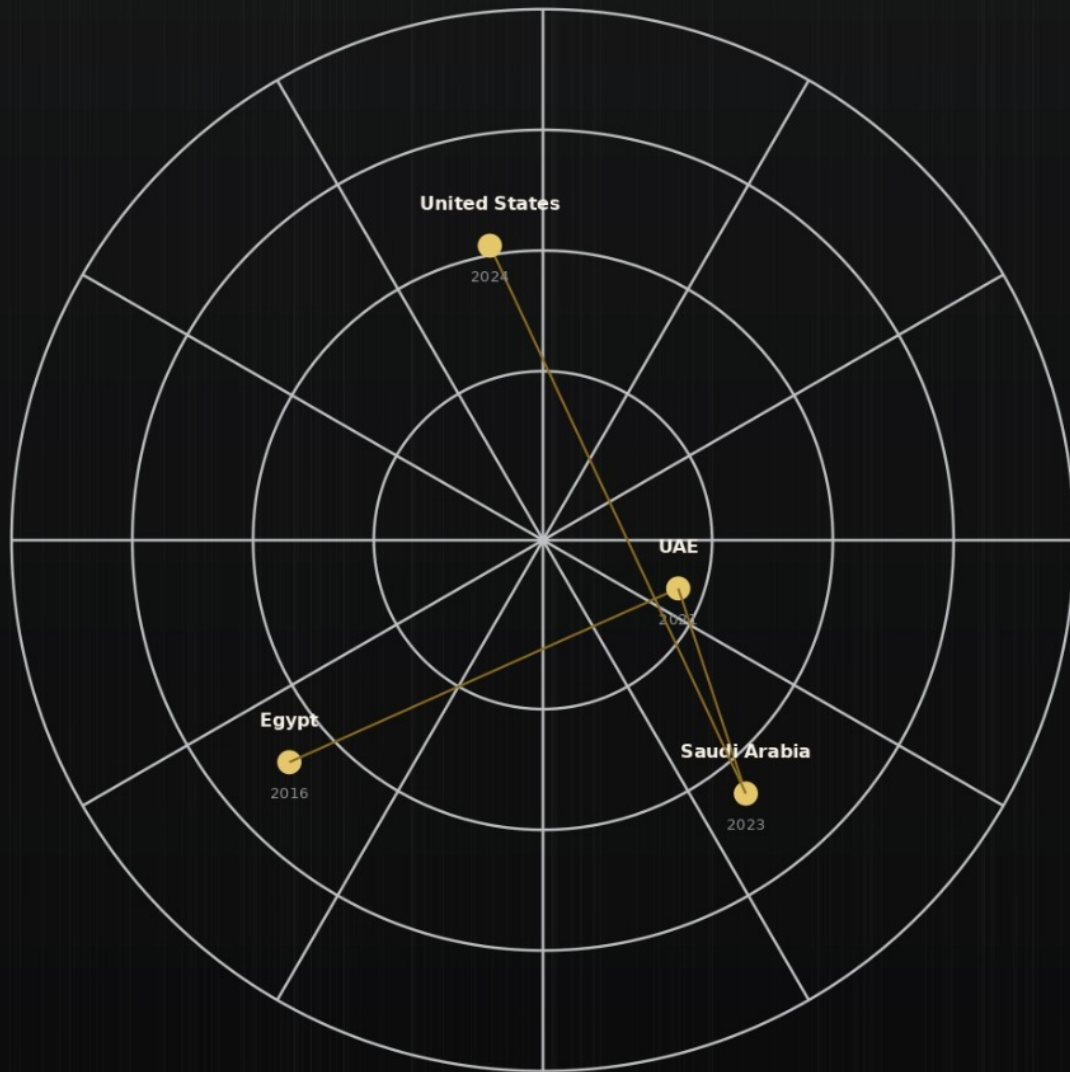

## 07 Customer-Centric Approach

Solutions developed around client expectations, project needs and final use case.

REGIONAL GROWTH

# Built in Egypt. Expanding Beyond Borders.

Since its establishment in Egypt in 2016, Egyptian Steel Services has developed a growing presence across regional and international markets, including the UAE, Saudi Arabia and the United States.
